

Rain Bird Esp-Lx 8-STATION Module

RGF42210

Details

The ESP-LX Basic Controller offers basic irrigation programming options you need for commercial sites. The simple dial makes programming the controller straightforward, and easy-to-understand menu options guide you through set-up. The ESP-LX Basic is the first controller to offer both English and Spanish on one dial. With 48-station capacity, four independent programs and up to eight start times for each station the ESP-LX Basic offers flexible scheduling options. Basic water management features such as Cycle+Soak, seasonal adjust, station delay, and SimulStations are available to meet unique site requirements.

- Adds 8 additional stations to Rain Bird ESP-LX Series modular controllers.
- Can be installed in any available slot.
- Hot-swappable 8-station expansion module can be installed without powering down the controller.
- Compatible with Rain Bird ESP-LXME, ESP-LXMEF and ESP-LX Basic series Irrigation controllers.
