

TeeJet Spray Tip - AIXR11002VP Yellow

RTJAIXR11002-VP

Details

This 110 degree wide nozzle features a tapered flat spray angle with air induction technology offering better drift management. Compact size to prevent tip damage. Made of a two-piece UHMW polymer construction with VisiFlo color-coding providing excellent chemical resistance, including acids as well as exceptional wear life. Depending on chemical, produces large air-filled drops through a Venturi air aspirator. Removable pre-orifice. Automatic alignment when used with 25612-*-NYR Quick TeeJet cap and gasket. Nozzle spacing 20". Pressure rating 15 - 90 psi (1-6) bar.

- Tapered edge flat spray angle pattern with air induction technology offers better drift management
- Produces large air-filled droplets through a Venturi air aspirator
- Unique UHMWPE polymer material used on the AIXR-VP adds improve wear life and better acid resistance
- The AIXR-VK polypropylene body provides excellent acid resistance, and the ceramic pre-and exit orifice offers improved wear life.
- Compact size to prevent tip damage.
- Removable pre-orifice
- Available in nine VisiFlo Polymer (VP) and seven VisiFlo ceramic (VK) capacities
- Automatic spray alignment with Quick TeeJet cap and gasket 114441A-*-CELR (015 to 06) or 114443A-*-CELR (08 and 10). Reference page 118 for more information.
